Re: **Estron Chemical Inc. Chemical Products and EU Directive 2002/95/EC (RoHS) Requirements**

EU Directive 2002/95/EC states that lead (**Pb**), mercury (**Hg**), cadmium (**Cd**), hexavalent chromium (**Cr⁺⁶**), polybrominated biphenyls (**PBB**) and polybrominated diphenyl ethers (**PBDE**) shall be banned from electrical or electronic equipment. The limits are 0.1% by weight for **Pb**, **Hg**, **Cr⁺⁶**, **PBB**, **PBDE** and 0.01% for **Cd**.

The Estron Chemical, Inc. chemical products listed below do not contain **Pb**, **Hg**, **Cr⁺⁶**, **PBB** or **PBDE** in amounts greater than 0.1% (1000 ppm) by weight or **Cd** in amounts greater than 0.01% (100 ppm) by weight. Estron Chemical, Inc. does not intentionally add any of these substances to its chemical products.

Product: Oxymelt A-4

Banned Material		Amount (ppm)
Cadmium	(Cd)	<0.49
Hexavalent Chromium	(Cr⁺⁶)	<0.49
Mercury	(Hg)	<0.042
Lead	(Pb)	<2.5
Polybrominated Biphenyls	(PBB)	None
Polybrominated Diphenyl Ethers	(PBDE)	None

As a representative of Estron Chemical, Inc., I hereby state that, to the best of my knowledge, the above listed chemical product complies with the RoHS maximum allowable concentrations.

Signed:

Robert A. Auerbach, PhD
Technical Director
Estron Chemical, Inc.
