Re: **Estron Chemical Products and EU Directive 2002/95/EC (RoHS) Requirements**

EU Directive 2002/95/EC states that lead (Pb), mercury (Hg), cadmium (Cd), hexavalent chromium (Cr+6), polybrominated biphenyls (PBB) and polybrominated diphenyl ethers (PBDE) shall be banned from electrical or electronic equipment. The limits are 0.1% by weight for Pb, Hg, Cr+6, PBB, PBDE and 0.01% by weight for Cd.

The following Estron Chemical products do not contain Pb, Hg, Cr+6, PBB or PBDE in amounts greater than those specified above:

**PRODUCTS: Escat 50, Escat 60, Escat 110**

Therefore, as a representative of Estron Chemical, I hereby state that, to the best of my knowledge, the above listed products fully comply with all requirements of EU Directive 2002/95/EC.
