

GHS COMPLIANT SAFETY DATA SHEET

TO COMPLY WITH *OSHA* HAZARD COMMUNICATION STANDARD 29 *CFR.1910.1200* & THE GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS

SECTION 1: IDENTIFICATION

PRODUCT NAME Escat BT-71

MFR.'S CODE ID/SYNONYMS Escat BT-71, Butaflow BT-71

CAS NUMBER Proprietary

PRODUCT USE Resin Crosslinker

RESTRICTIONS ON USE For industrial use only
MANUFACTURER/SUPPLIER Estron Chemical, Inc.

ADDRESS 807 North Main Street, Calvert City, KY 42029 USA

GENERAL INFORMATION (270) 395-4195

EMERGENCY TELEPHONE CHEMTREC (800) 424-9300

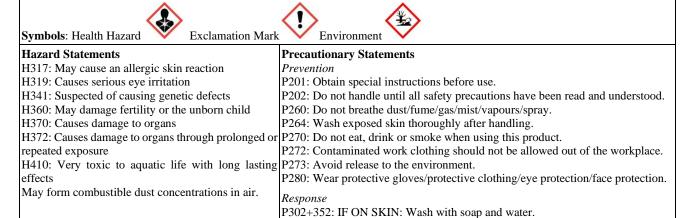

SECTION 2: HAZARDS IDENTIFICATION

Signal Word: Danger

GHS Classification

Physical	Health	Environmental
	Skin Sensitization – Category 1 Germ Cell Mutagenicity – Category 2	Hazardous to the Aquatic Environment, Acute Hazard – Category 1 Hazardous to the Aquatic Environment, Chronic Hazard – Category 1

GHS Label

P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes.
Remove contact lenses if present and easy to do – continue rinsing.
P307+311: IF exposed: Call a POISON CENTER or doctor/physician.
P314: Get medical advice/attention if you feel unwell.
P321: Specific treatment (see supplemental first aid instructions on this label)
P333+313: If skin irritation or a rash occurs: Get medical advice/attention.
P337+313: If eye irritation persists, get medical advice/attention.
P363: Wash contaminated clothing before reuse.
P391: Collect spillage.
Storage
Siorage
P405: Store locked up.
Disposal
P501: Dispose of contents/container to an authorized hazardous waste handler.

HAZARDS NOT OTHERWISE CLASSIFIED: Exposure may aggravate those with pre-existing eye, skin or respiratory conditions. When heated to decomposition, emits toxic fumes.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

HAZARDOUS INGREDIENTS	CAS#	%	CLASSIFICATION	H Codes
Dibutyltin Dilaurate	77-58-7	68 - 71	Eye Damage/Irritation – Category 2	H319
			Skin Sensitization – Category 1	H317
			Germ Cell Mutagenicity – Category 2	H341
			Toxic to Reproduction – Category 1B	H360
			Specific Target Organ Toxicity, Single Exposure –	H370
			Category 1	
			Specific Target Organ Toxicity, Repeated Exposure –	H372
			Category 1	
			Hazardous to the Aquatic Environment, Acute Hazard	H400
			- Category 1	
			Hazardous to the Aquatic Environment, Chronic	H410
			Hazard – Category 1	
Silica, Amorphous, Precipitated	112926-00-8	29 - 32	OSHA Combustible Dust (when blended with	None
			Dibutyltin Dilaurate)	

(See Section 8 for Exposure Limits)

Contains no detectable crystalline silica (detection limit <0.1% by weight).

SECTION 4: FIRST-AID MEASURES

SYMPTO	O 2MC	F FXPC	SHRE

ACUTE Skin and serious eye irritation. May cause an allergic skin reaction. May damage fertility.

Suspected of causing genetic defects. May cause repiratory irritation.

DELAYED Stinging, tearing, redness and swelling of the eyes. Redness or burning of the skin. Shortness of

breath. Nausea or gastric pain. Suspected of causing genetic defects. May damage fertility or the

unborn child. Causes damage to organs through prolonged or repeated exposure.

INHALATION Inhalation may cause respiratory irritation. Remove victim to fresh air and keep at rest in a position

comfortable for breathing. Obtain medical attention if breathing difficulty persists.

SKIN CONTACT May cause an allergic skin reaction. Wash thoroughly with soap and water. Remove/Take off

immediately all contaminated clothing. Rinse skin with water/shower. If skin irritation or a rash

occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

EYE CONTACT Causes serious eye irritation. Immediately seek medical attention. Rinse cautiously with water for

several minutes. Remove contact lenses if present and easy to do – continue rinsing.

Causes damage to organs. Suspected of causing genetic defects. May damage fertility or the unborn **INGESTION**

child. If ingested, immediately call a POISON CENTER or doctor/physician, rinse mouth. Do

NOT induce vomiting.

SPECIFIC TREATMENT No other specific treatments are known or have been identified.

SECTION 5: FIRE FIGHTING MEASURES

FLAMMABILITY CLASSIFICATION OSHA Combustible Dust FLAMMABLE LIMITS No test data available

HAZARDOUS COMBUSTION PRODUCTS Carbon Dioxide, Carbon Monoxide, Tin Oxides.

EXTINGUISHING MEDIA Dry Chemical, Water Fog, Foam, CO2

UNUSUAL FIRE AND EXPLOSION

HAZARDS

Avoid generating dust; fine dust dispersed in air in sufficient concentrations and in the presence of an ignition source is a potential dust explosion hazard.

SPECIAL FIRE FIGHTING PROCEDURES Do not allow run-off from fire-fighting to enter drains or water courses.

SPECIAL PROTECTIVE EOUIPMENT AND PRECAUTIONS FOR FIRE FIGHTERS

As in any fire, wear self-contained positive-pressure breathing apparatus, (MSHA/NIOSH approved or equivalent) and full (Bunker) protective gear.

SECTION 6: ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS Prevent contact with skin, eyes and clothing. Ensure adequate ventilation. Wear

> personal protective equipment (see Section 8), including impermeable boots. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration.

PROTECTIVE EQUIPMENT See Personal Protective Equipment in Section 8.

EMERGENCY PROCEDURES Isolate the area and eliminate all ignition sources. Ground and bond all containers and

handling equipment.

ENVIRONMENTAL PRECAUTIONS Obey relevant local, state, provincial and federal laws and regulations. Do not allow

the product to enter public drainage systems or open water courses.

METHODS AND MATERIALS FOR

CLEANING UP

Avoid creating excessive dust while collecting. Sweep or scoop into a suitable

container for disposal.

SECTION 7: HANDLING AND STORAGE

PRECAUTIONS FOR SAFE HANDLING This material is a potential skin sensitizer. Prevent contact with skin and eyes. Prevent

inhalation. Use only in an area equipped with a safety shower. If necessary, use local

Handle in accordance with good industrial hygiene and safety practice. Minimize dust generation and accumulation. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Dry powders can build static electricity charges when subjected to the friction of transfer and mixing operations. Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres. Refer to NFPA 654, Standard for the Prevention of Fire and Dust Explosions from the Manufacturing, Processing and Handling of Combustible Particulate Solids, for safe

Containers may be hazardous when empty. Since emptied containers retain product

residue follow all SDS and label warnings even after container is emptied.

When heated to decomposition, emits toxic funes, flammable gas and corrosive vapors.

CONDITIONS FOR SAFE STORAGE Store locked up. Keep container tightly closed and store in a dry, well ventilated area

away from heat and sources of ignition. To minimize degradation of the product, avoid unnecessary exposure to moisture and atmospheric oxygen by keeping the package tightly closed when not in use. The product shelf life is two years from date of

manufacture in an unopened container stored at 20 °C.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

INGREDIENTS CAS# ACGIH TLV OSHA PEL 68 - 71 Dibutyltin Dilaurate 77-58-7 0.1 mg/m^3 0.1 mg/m^3

Silica, Amorphous, Precipitated 29 - 32 5 mg/m³ (Respirable) 112926-00-8 10 mg/m^3

APPROPRIATE ENGINEERING CONTROLS Showers, eyewash stations and ventilation systems. It is recommended that all dust

> control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion

suppression system or an oxygen-deficient environment. Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels and processing equipment) are designed in a manner to prevent the escape of dust into the work area. Use only appropriately classified electrical equipment and powered industrial trucks.

PERSONAL PROTECTIVE EQUIPMENT

EYE/FACE Safety glasses or goggles.

SKIN Impervious protective gloves and clothing as appropriate to prevent skin contact.

RESPIRATORY An appropriate NIOSH approved respirator where exposure limits are exceeded.

HYGIENE MEASURES Handle in accordance with good industrial hygiene and safety practices. When using, do not eat,

drink or smoke. Wash face and hands before breaks and at the end of work. Wash contaminated

clothing before re-use.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

APPEARANCE White powder **ODOR** Very mild, aromatic ODOR THRESHOLD No test data available рH No test data available MELTING POINT No test data available **BOILING POINT/RANGE** No test data available 189 - 193 °C / 372 - 379 °F No test data available FLASH POINT **EVAPORATION RATE**

(component), closed cup

SECTION 10: STABILITY AND REACTIVITY

REACTIVITY This product does not pose a significant reactivity hazard when stored

appropriately (see Section 7).

STABILITY This product is stable when stored appropriately (see Section 7).

CONDITIONS TO AVOID Dust accumulation in air or on surfaces, excessive heat, moisture and open flame.

INCOMPATIBILE PRODUCTS Oxidizing Agents, Contamination.

HAZARDOUS DECOMPOSITION PRODUCTS Carbon Dioxide, Carbon Monoxide, Tin Oxides.

POSSIBILITY OF HAZARDOUS REACTIONS Will not occur

SECTION 11: TOXICOLOGICAL INFORMATION

SYMPTOMS OF EXPOSURE

ACUTE Skin and serious eye irritation. May cause an allergic skin reaction. May damage fertility.

Suspected of causing genetic defects. May cause repiratory irritation.

DELAYED Stinging, tearing, redness and swelling of the eyes. Redness or burning of the skin. Shortness

> of breath. Nausea or gastric pain. Suspected of causing genetic defects. May damage fertility or the unborn child. Causes damage to organs through prolonged or repeated exposure.

ACUTE TOXICITY

INHALATION Inhalation may cause respiratory irritation.

SKIN May cause an allergic skin reaction.

EYES Causes serious eve irritation.

INGESTION Ingestion is likely to be harmful or have adverse effects. INHALATION TOXICITY LC50 Rat Dibutyl tin dilaurate No data available

No data available Silica

DERMAL TOXICITY LD50 Rat Dibutyl tin dilaurate >2,000 mg/kg >5000 mg/kg Silica

SKIN IRRITATION Draize, Rabbit, 24 hours Dibutyl tin dilaurate Skin irritation Moderate

> Not established Silica

EYE IRRITATION Not established Draize, Rabbit, 24 hours Dibutyl tin dilaurate

Not established Silica

ORAL TOXICITY LD₅₀ Rat Dibutyl tin dilaurate >2000 mg/kg

Silica >1000 mg/kg

SENSITIZATION May cause allergic skin reaction Guinea Pig Dibutyl tin dilaurate

> Draize, Rabbit Dibutyl tin dilaurate 500 mg Severe

Silica Not established

CHRONIC EFFECTS

CARCINOGENICITY Not listed as a carcinogen by ACGIH, IARC, NTP, or CA Prop 65

MUTAGENIC EFFECTS Suspected of causing genetic defects.

REPRODUCTIVE TOXICITY May damage fertility or the unborn child.

Dibutyl tin dilaurate - Developmental Toxicity (Rat, oral)

Specific Developmental Abnormalities: Craniofacial (including nose and tongue).

Musculoskeletal system

TARGET ORGAN EFFECTS Causes damage to organs.

SECTION 12: ECOLOGICAL INFORMATION

ECOTOXICITY Very toxic to aquatic life with long lasting effects.

TOXICITY TO FISH LC₅₀ Danio rerio, 96 hours Dibutyl tin dilaurate 21.2 mg/l

LC₅₀ Oryzias latipes, 96 hours Silica >10,000 mg/l

TOXICITY TO DAPHNIA EC₅₀ Daphnia magna, 24 hours Dibutyl tin dilaurate 1.9 - 3.8 mg/l

> Silica >10,000 mg/l

PERSISTANCE AND

DEGRADABILITY Not readily biodegradable.

BIOACCUMULATIVE

POTENTIAL Dibutyl tin dilaurate Log $P_{ow} = 4.44$

MOBILITY IN SOIL No data available

OTHER ADVERSE

EFFECTS Very toxic to aquatic life with long lasting effects. Avoid release to the environment.

SECTION 13: DISPOSAL CONSIDERATIONS

WASTE DISPOSAL Dispose of in accordance with local, state and federal regulations. This product,

as supplied, meets the definiation of a hazardous waste according to Federal regulations (40 CFR 261). Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste dispal service to dispose of this material. Dissolve or mix the material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and

scrubber.

US EPA WASTE NUMBER & DESCRIPTION No information available

SECTION 14: TRANSPORT INFORMATION

This section provides basic shipping classification information. Refer to appropriate transportation regulations for specific requirements.

U.S. DOT

Not dangerous goods

Estron may choose to ship this product domestically as a hazardous material using one of the other codes shown in this section.

ICAO / IATA

Proper Shipping Name: Environmentally Hazardous Substance, solid, n.o.s., (contains dibutyltin dilaurate)

Classification: 9 UN#: 3077 Packing Group: III

Hazard Label: Marine pollutant

IMDG

Proper Shipping Name: Environmentally Hazardous Substance, solid, n.o.s., (contains dibutyltin dilaurate)

Classification: 9 UN#: 3077 Packing Group: III

Hazard Label: Marine pollutant

ADR/RID

Proper Shipping Name: Environmentally Hazardous Substance, solid, n.o.s., (contains dibutyltin dilaurate)

Classification: 9 UN#: 3077 Packing Group: III

Hazard Label: Marine pollutant

SECTION 15: REGULATORY INFORMATION

The components in this product are either listed or exempt from listing due to polymer exemption criteria for the following chemical listing inventories as indicated by an "X":

AIIC	Australian Inventory of Industrial Chemicals	X
DSL	Canadian Domestic Substances List	X
ECL	Korean Existing Chemicals List	X
ENCS	Japanese Existing and New Chemical Substances	X
IECSC	Inventory of Existing Chemical Substances in China	X
INSQ	National Inventory of Chemical Substances in Mexico	X
NDSL	Canadian Non-Domestic Substances List	
NZIoC	New Zealand Inventory of Chemicals	X
PICCS	Philippines Inventory of Chemicals and Chemical Substances	X
TCSI	Taiwan Chemical Substances List	X
TSCA	US Toxic Substances Control Act	X
VNECI	Vietnam National Existing Chemical Inventory	X

INTERNATIONAL REGULATIONS

EU REGULATION (EC) No. 1907/2006 (REACH) Annex XIV - List of substances subject to authorization, Substances

of Very High Concern: This product does not contain any SVHC listed substances.

REACH One or more components of this product are not REACH registered. Import quantities may be subject

to limitation.

C.D. 96/82/EC Council Directive 96/82/EC, Annex I not mentioned by name. With regard to possibly appropriate

decomposition products see Chapter 10.

FEDERAL REGULATIONS

SARA 313 This product does not contain any chemicals which are subject to the reporting requirements of

Section 313 of Title III of the Superfund Amendments and Reauthorization Act (SARA) (40 CFR

355).

SARA Section 311/312 (40 CFR 370) Hazard Categories

Acute Health Hazard Yes Chronic Health Hazard Yes Fire Hazard Yes Pressure Hazard No Reactivity Hazard No

CERCLA This product, as supplied, does not contain any substances regulated as hazardous substances under

the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional or state level pertaining to releases of this

product.

CLEAN WATER ACT This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act

(40 CFR 122.21 and 40 CFR 122.42).

CLEAN AIR ACT This product does not contain any substances regulated as hazardous air pollutants (HAPS under

Section 112 of the Clean Air Act Amendments of 1990.

OTHER FEDERAL None known

U.S. STATE REGULATIONS

RIGHT TO KNOW The Listing requirements of the Right to Know (RTK) legislation varies by state. All information

for NJ, PA, MA and other states can be derived from the listing of hazardous and non-hazardous

components in Section 3 of this Safety Data Sheet.

CALIFORNIA PROP 65 No substances known to the state of California to cause cancer and/or reproductive toxicity were

intentionally added to this product.

SECTION 16: OTHER INFORMATION

DISCLAIMER

This product is intended for industrial use only and should be used in accordance with the manufacturer's recommendations. Some of the information presented and conclusions drawn herein are from sources other than direct test data on the product itself. The information in this SDS was obtained from sources which we believe are reliable. However, the information is provided without any warranty, express or implied, regarding its correctness. The conditions or methods of handling, storage, use and disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product. This SDS was prepared and is to be used only for this product. If the product is used as a component in another product, this SDS information may not be applicable. This SDS has been prepared in accordance with the requirements of the OSHA Hazard Communication Standard (29 CFR 1910.1200).

DATE OF REVISION January 11, 2024, replaces the September 20, 2022 version.

REASON FOR REVISION Updated the hazards and information throughout based on the latest supplier information.
